

Endura-Fresh™ Natural Supreme

Keep citrus looking fresh from packhouse to market

Endura-Fresh™ Natural Supreme is a morpholine free and amine free citrus coating that limits moisture loss and maintains its original shine and durability from packing to arrival. It dries quickly and performs reliably under challenging packhouse conditions for domestic programs and export shipments.

This natural coating forms a protective finish that helps reduce shrinkage while keeping fruit looking its best through sweat cycles, long transports, and demanding display conditions.

Product Features & Benefits

- High shine with durability through repeated sweat cycles
- Reduced whitening and flaking
- Fast drying for efficient throughput
- Strong control of shrinkage and moisture loss
- Easy to use in packhouse operations
- Suitable for most citrus varieties
- Supports good color development of fruit
